

Virginia Ready-Mixed Concrete Association

Architectural Flatwork

Colored and Stamped Concrete provides beautiful colors and patterns to driveways, walkways, and patios.

Colored and Stamped Concrete is...

- **Versatile:** Concrete can be colored, stamped or stenciled to create a variety of textures and decorative finishes. A myriad of colors and patterns can be used to create the desired effect.
- **Economical:** The driveway, walkway or patio can become a part of the overall landscaping plan with the look of slate, cobblestones, sandstone, or a host of others at a fraction of the cost.
- **Durable:** Concrete is low maintenance in nature and has a long service life.
- **Elegant:** Colored and stamped concrete can add an elegance to the home and greatly improve curb appeal and market value.
