THE NATIONAL READY MIXED CONCRETE ASSOCIATION

Pervious Concrete Contractors Certification Course

Pay online at
[www.vrmca.com/
store/products.asp](http://www.vrmca.com/store/products.asp)

The Pervious Concrete Technician Course will provide information on the Fundamentals of Pervious Concrete, Stormwater Management, Sustainable Development, Pervious Concrete Technology, Pervious Concrete Materials, Design Principles, Pervious Concrete Placement, and Troubleshooting.

A five-year certification will be issued by NRMCA upon successful completion of the course and passing the 50-question examination. Note: The placement of Pervious Concrete is not required for this certification. Course Instructor: William Denison is an NRMCA Certified Concrete Professional in Concrete Technology and

Certified Instructor for the Pervious Concrete Contractors Course. Bill has over eighteen years of teaching experience in Materials Engineering and Concrete at Tidewater Community College.
