

CASE STUDY

Elite Shooting Sports,
Manassas, VA

Completed: 2014 **Size:** 65,000 SF
Owner: Arlington Public Schools
Architect: Architecture, Inc.
General Contractor: R.W. Murray Company
Engineer: BEI Structural Engineers

Attributes: This facility is a new breed of gun clubs being built throughout the country commonly referred to as Guntry Clubs. This upscale facility includes 42 lanes and is open to all without special membership fees. It is open to the public and local law enforcement agencies. Tilt-up construction was used for improved shell building construction speed and cost reduction. High quality exterior materials include tilt-up concrete panels, aluminum storefront windows and entrance systems. The team was able to complete the project in a compressed six-month schedule.
