

CASE STUDY

Twin Vehicular Tunnels
Lynchburg, VA

Completed: 2014 **Size:** 23 Ft. x 32 Ft. x 130 Ft. Box Tunnels

Owner: Liberty University

Architect: Brierley Associates

General Contractor: Southland Contracting

Engineer: Brierley Associates **Concrete Finisher:** Lloyd Concrete Services

Attributes: These two-lane tunnels with pedestrian walkways were installed under an existing Norfolk Southern railroad track. The two tunnels provide easy access to Liberty University. This is the first and only time this method has been used in the U.S.
